

ROGER W. SHERMAN, MD

## AVIATION SERVICES

Dr. Sherman has been practicing Aerospace Medicine since 1971, when he served as a U.S. Air Force flight surgeon, and his private practice continues to utilize his experience as a Senior Aviation Medical Examiner (AME).

Our wide aviation clientele range from student pilots with zero time to ATP pilots with thousands of hours. We work closely with local flying schools and accredited aeronautical academies, as well as many major airlines.

Our office provides:

- Class I, Class II and Class III flight physicals
- Student pilot medical exams
- Special Issuance certification services for medically disqualified pilots, such as:
  - FAA medical record review
  - Special Issuance consultations
  - FAA-sanctioned assistance to pilots with continued certification authorization

Dr. Sherman has dedicated countless hours of research and canvassing to help pilots maintain and regain their flying status. We can assist you with effective ways to safeguard your career or beloved pastime.

Please call our office to schedule your appointment. Be sure to mention any medications or medical history that may require a longer appointment time.

Aviation service fees are available upon request. Payment is expected at the time of your appointment, via cash, check or credit card.
